Set Up Season 3 – Exception Dates

Put in the starting and finishing date of any break in the pennant program – no pennant days will be allotted between these dates. *In this case you have to put in the starting date of a break before the finish date*

Exception Dates (SWPennants2015)

Date: ◆	19-Dec-2014	19-Dec-2014
Reason: ◆	Christmas Break	

An exception date is required for any normal playing day on which there is no game

Set Up Season 4 – Exception Dates

Add an exception date for any normal playing day within the seasons on which competitions will not be playing (if no competition plays on Sundays they are not exceptions)

Exception Dates (SWPennants2015)

Date: •	18-Mar-2015	18-Mar-2015

You have the chance to put in exception dates (non playing days) when you are about to generate fixtures in any division. It is better to put them all in here and only use the later place if, for example, on a particular Saturday your top division has a day off but your second division is playing

STEP 3 Setting Up a Competition

You can set up your season by entering every one of your 'sections' as an individual 'competition' This training is based upon each playing day being a competition, and on each day the 'sections' are called 'divisions'.

Click on 'Competitions' and then on 'Add'

Choose your season from the drop down menu. Then click in the setting settings you need, They will often be standard, pennant, four teams, fours, team, clubs,divisions, memberdesq integration and click on 'next'

If you are not using divisions the set up for a competition without divisions is exactly the same as for a division. One complication – because the number of rinks is set at competition level, if you have two sections on the same day with different numbers of rinks they have to be in different competitions

⊙ Add

The system currently has no divisions recorded.
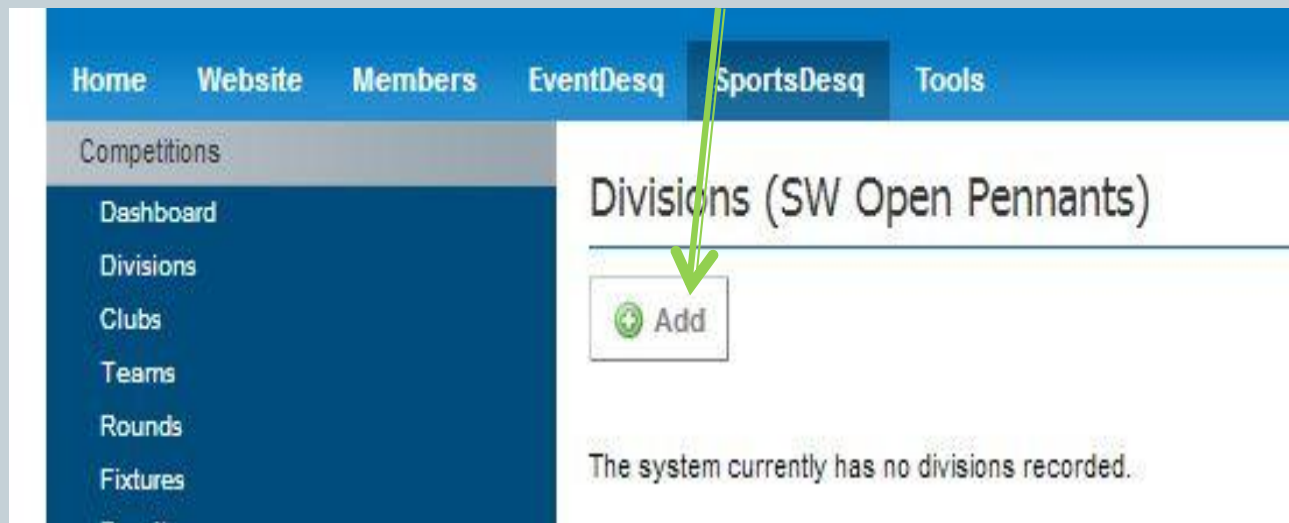

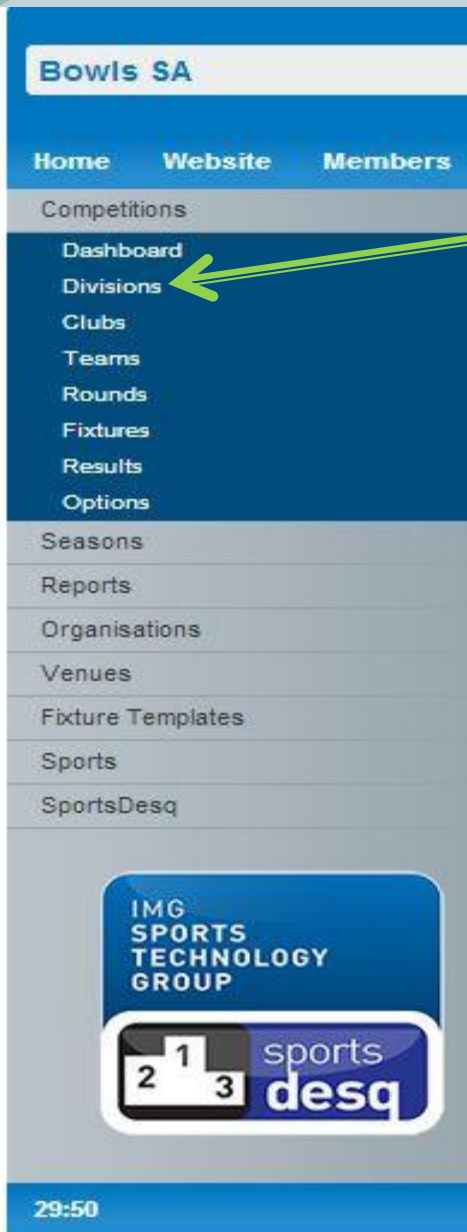

Fill in all the following screens carefully. The information should be copied to any other division you create in the competition, but always check them
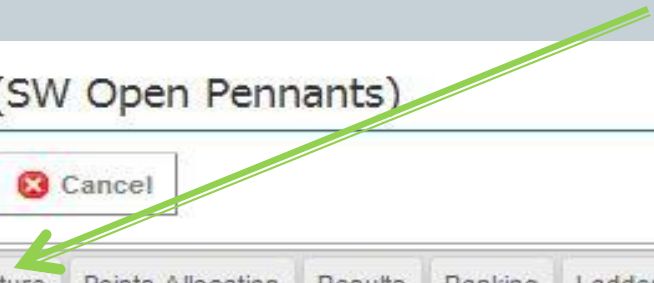

Division Set Up 3 – Fixtures

1) Put in the expected number of sides. If there is to be a bye put in 8 or 10 or 12

2) Remember to click no for all non playing days

3) Put in your start time

4) Then click on 'points allocation'

5) Do not save

The points shown are default points for the system. Get your points right!

'Side withdrawal' is different from 'bye'.

Because earlier opponents may have received forfeits side withdrawals later normally attract full or nearly full points
